

National Survey Results

Q1 Since 2008 American firms have engaged in one of the largest rounds of mergers in history, worth \$10 trillion. As a result of these mergers, there are now only 4 major national airlines in the US; five health insurance companies control 83% of the insurance market; and three retail companies control 99% of the drug stores in the country. Meanwhile four companies control 84% of the beef Americans eat and four firms control 60 percent of the chicken we eat. In the last year, the largest agricultural corporations that own nearly all the seeds for crops including corn, soybeans and cotton and nearly all the chemicals used in growing those crops agreed to merge – leaving only four huge companies that control nearly almost all seeds and agrichemicals. How concerned are you about growing business power, potential monopolies, and concentrated corporate power in the United States? Are you very concerned, somewhat concerned, or not concerned, or are you neutral?

<i>Very concerned</i>	69%
<i>Somewhat concerned</i>	21%
<i>Not concerned</i>	5%
<i>Neutral</i>	4%
<i>Not sure</i>	1%

<i>Not important</i>	5%
<i>Not sure</i>	3%

Q15 Thinking ahead to the 2018 election, how much of a factor will a candidate's willingness to fight growing concentrated corporate power and control over prices and products be when deciding whom to vote for? Will it be a major factor, a moderate factor, a minor factor, or not a factor at all?

<i>Major factor</i>	51%
<i>Moderate factor</i>	32%
<i>Minor factor</i>	11%
<i>Not a factor at all</i>	5%
<i>Not sure</i>	1%

Q16 The merger of Monsanto and Bayer is valued at \$66 billion. But the government gets to approve or disapprove based on the potential effects on consumers. If the government says yes, the resulting company will control most of the world's seed supply for our major crops. It will also be the world's largest agricultural chemicals company and world's largest vegetable seed company. Having heard this, does the Monsanto-Bayer merger give you very serious concerns, somewhat serious concerns, or no concerns?

<i>Very serious concerns</i>	69%
<i>Somewhat serious concerns</i>	21%
<i>No concerns</i>	8%
<i>Not sure</i>	2%

Q17 I want to talk to you more about the proposed merger of Monsanto and Bayer. If it goes through, the new company will control the seed for about 70 percent of all the cotton grown in the US. Monsanto and Bayer and one other company will control three-quarters of all the corn seed grown in the US. After this merger many of the vegetables you eat, key ingredients in your processed foods like cereal, soda, chips, cookies, and bread, the canola oil you use in cooking, and the cotton you wear is going to be controlled by one company. After hearing this, would you say you strongly support, somewhat support, somewhat oppose, or strongly oppose the merger of Monsanto and Bayer?

<i>Strongly support</i>	10%
<i>Somewhat support</i>	8%
<i>Somewhat oppose</i>	22%
<i>Strongly oppose</i>	57%
<i>Not sure</i>	3%

Q18 If the merger goes through, about 95 percent of all seed for corn, soybean, cotton, and canola, and will likely contain a Monsanto and Bayer gene used to enable the extensive use of herbicide chemicals like Roundup in the fields. After hearing this, would you say you strongly support, somewhat support, somewhat oppose, or strongly oppose the merger of Monsanto and Bayer?

<i>Strongly support</i>	7%
<i>Somewhat support</i>	8%
<i>Somewhat oppose</i>	19%
<i>Strongly oppose</i>	63%
<i>Not sure</i>	3%

Q19 Thinking about the proposed merger of Monsanto and Bayer, what would you say gives you the greatest concern: decreased choice at the grocery store, lower quality food products, more expensive food products, scarcer supply of organic food, increased chemical contamination of farmland, increased chemical contamination of food, harm to independent farmers and farming communities, harm to the environment, or reduced innovation in agriculture?

<i>Decreased choice at the grocery store</i>	7%
<i>Lower quality food products</i>	13%
<i>More expensive food products</i>	15%
<i>Scarcer supply of organic food</i>	6%
<i>Increased chemical contamination of farmland</i>	18%
